

**Amendment to the Claims:**

Kindly amend the claims in accordance with the following claim set:

Claim 1 (Currently Amended) A wiper cloth comprised of a hexagonal sheet material having an interior portion defining two opposing faces and six contiguous perimeter edges disposed in surrounding relation to said interior portion such that the six contiguous perimeter edges cooperatively define an hexagonal edge boundary extending in substantially continuous unbroken relation around said interior portion.

Claim 2 (Previously Amended) The wiper cloth of Claim 1 wherein the six contiguous perimeter edges are of substantially equal length.

Claim 3 (Previously Canceled)

Claim 4 (Previously Amended) The wiper cloth of Claim 1 wherein the sheet material is knitted fabric comprised of filament synthetic yarn.

Claims 5-26 (Previously Canceled)

Claim 27. (Previously Added) The wiper cloth of claim 1 wherein the sheet material comprises a knitted fabric.

Claim 28. (Previously Added) The wiper cloth of claim 1 wherein the sheet material comprises a woven fabric.

Claim 29 (Previously Added) The wiper cloth of claim 1 wherein the sheet material comprises a nonwoven fabric.
